

STELLAR Progress Chart Instructions

1. Print and cut out all the stars, rocket ships, planets, comets, etc. Then attach them to your classroom wall in a line using tape, sticky tack, etc.
2. Write each student's name on a rocket.
3. Create a list of ways a student's rocket can make progress. (See sample list below.) Each time a student earns credit, move their rocket forward.
4. Reward students once they reach a certain point (i.e. every time they land on a planet, etc.)

Be a STELLAR student!

1. Come to Sunday school.
2. Bring your Bible.
3. Memorize verses!
4. Do your worksheet.
